Visiting Colleges This Spring and Summer:

Once the warm weather comes around, you should be looking into taking advantage of it and spend time visiting perspective colleges. Make sure you call ahead and schedule a guided tour of the campus. Check out the surrounding area that your college is located in. Additionally, try to sit in at least one of the classes. Talk to already enrolled students and faculty. It may also be a good idea to try to eat lunch with a student ambassadors, and a staff member. Last but not least, have fun, remember although this is a test run on your future education experience, doesn't mean you can't enjoy your visit.
